It only takes 2 cooking sessions per week to fill your fridge with delicious, healthy meals.

I created this cookbook because I remember what starting out felt like. I wanted to eat better, save money, and feel stronger, but I had no idea where to start. I was wasting a lot of ingredients, and I was overwhelmed.

I made it my mission to eliminate the learning curve for you. I want you to be a solid meal prepper on *day one*.

So I built the **Insanely Easy Cookbook**. All 13 recipes are designed to:

- **Practically cook themselves.** No fancy techniques or equipment. If you can stir a pan and set a timer, you're good.
- **Teach you the basics.** You'll learn how to prep, portion, store, and reheat like someone who's done this before. You'll get experience using meal prep essentials like chicken, beef, and rice.
- **Get you results.** These meals are high-protein, fridge-friendly, and built to help you feel full and fuel your goals.

By the time you finish this cookbook, you'll have the core skills to feed yourself, your friends, and your family for life - in just 2 cooking sessions per week. Once you taste these meals, you'll never go back.

Your fridge is about to become your new flex. You've got this.
